## FROM SOUTH AFRICA

THE CAPTURE OF CETEWAYO ALL .00 MIMPORTANT

Sir Garnet Wolseley will not Pursue the Zulu King, but will inflame the Neighboring Tribes.

London, August 4.- A special dispatch from SouthAfrica agrees that the capture of Cetewayo is all important. because as long as he is free he will remain the center of conspiracy and mischief. General Wolseley however has no intention of pursuing him with British troops as the nature of the country renders such a course impracticable. His policy rather is to stir up the neighboring tribes against the King Agents have been sent to the Swazies and Amatouzes with this object in view, and five thousand cattle have been offered to Oham if he will capture his brother. General Wolselev has summoned all the native chiefs to meet him at Waugeveni July 19th to hear the final terms of the settlement. The flying column has started for that place to prepare for the meeting and General Wolseley and his staff will soon follow.

London, August 4 .- A dispatch to the Daily Telegraph from Capetown says: The chief of Morasia has submitted; the present trouble with the Basutas therefore is settled, but much discontent still exists. It is feared that there will be a severe famine next year in Zululand, as it is now seed time and no land is being sown, while much seed has been destroyed and many cat-

tle have been seized.
Rumors are now rife of impending troubles in the Transvaal. It is feared that if the colonial ministers take energetic measures with regard to that province, immediate disturbances will ensue. The announcement of the dispatch of troops, and the approaching visit of Sir Garnet Wolseley, have probably disquieted the Boers.

A dispatch to the Times from Port Durnford, dated July 13th, says King Cetewayo, when leaving the battlefield of Ulundi, told his chiefs to look to their own safety and to seek terms of peace as best they could. His army is broken up, the nation is dispersed and the King a fugitive. Zululand will probably be divided into three or four separate principalities, each under the rule of an independent Noble. Cetewayo's brother, Oham, will receive his own territory under this arrangement.

## Attempt to Shoot General Badger.

NEW ORLEANS, August 4 .- About 10:30 o'clock this morning, as General Badger was ascending one of the side entrance stairways from the lower floor to the main offices of the Custom House. Brown, ex-Metropolitan policeman, who, with the remark, "I've got you ow," drew a revolver and fired at the head of the Collector. Seeing the man's movement, Collector Badger caught his arm and diverted the shot over his shoulder, and then took the pistol away from Brown and threw it below. Brown lost a leg on the 14th of September, 1874, under Badger, and was among Badger's first appointees as postmaster. Becoming Collector, Badger left Brown in the postoffice, where he failed to remain. The Collector thinks Brown was crazed by poverty, and seems unwilling to prosecute him. Brown evidently thinks General Badger should have given him a place in the Custom House.

The First Bale. MOBILE, August 4 .- The first bale of new cotton was received to-day from Wilcox county, Alabama. It was classed low middling, and sold for twelve cents, to E.V.George & Brothers, for shipment to Havre. Crop accounts are generally good, but damage from continuous rains is apprehended. There is no yellow fever here, and the city is

A West Virginia Town in Ashes. WHEELING, W. Va., Aug. 4.—A fire broke out at Volcano, a town of

2,000 inhabitants in Wood county, this State, early this morning and is still raging fiercely. Half of the town is now in ashes, and it is probable the flames will not be stayed until there is nothing left for them to feed upon, as water cannot be had in anything like sufficient quanity to quench even an ordinary fire. At present writing all stores, hotels, warehouses, telegraph office and depotare destroyed. Among the stores burned are Graham, Smith & Company, Jackson & Gould, Samuel Thompson, Jackson, W. C. Stiles, J. R. McGill, post office and store; several of these houses carry very large stocks of goods, and many of the warehouses are stored with oil. As every house in town is built of wood it is almost certain that the entire town will be consumed. It is estimated here that the loss will reach fully \$100,000 and probably more. The fire is supposed to be the work of incendiary.

Stock Exchange Closed. LONDON, Aug. 5.—To-day being a holiday the Bank of England and the stock exchange will be closed and there will

be no quotations of prices.

End of the Sprag ue Suits, PROVIDENCE, August 4.--In the United States Circuit Court to-day Judge Lowell's opinion was given in the equity suit of Wm. S. Hoyt vs Amasa Sprague et al and Charles G. Francklyn et al, vs. same. The bill was dismissed with costs. This decision relieves A. & W. Sprague's estate of claims which if sustained would have

absorbed nearly the whole property.

A Conference Agreed To. London, August 4.—The Wesleyan Conference of Birmingham has adopted a report in favor of an ecumenical conference as proposed by American Westeyans and appointed a committee to make arrangements for the meeting.

Rescuing a Prisoner,

GALVESTON, August 3.—A special dispatch to the News from Arlington says: Deputy United States Marshal George White and party with their prisoner, "Tim" Alford, while en route for Fort Worth, were attacked by three of Alford's brothers, and in the skirmish which ensued, White was shot in the groin and perhaps ratally wounded. Two of the Alfords were wounded, but they rescued the prisoner and escaped.

Severe Storm.

LONDON, Aug. 4.-A storm of extra-Ordinary severity in the valley of the Thames and other parts of England Saturday night, caused immense injury to the growing crops by rain, hail and inundation, which will be irreparable this season. Loss of live stock is serious. The damage to glass in places immediately around London, amounts to thousands of pounds sterling. In a great part of Bedfordshire the hay crop has been completely swept away and many cattle drowned. New Market neighborhood are flooded. The rain fall in Buckinghamshire is estimated at seventy tons per acre. Damages by floods and lightning also reported from Cambridge, Norfolk, Guilford, Leicester, Bath and Monmouth. THE NORTHEAST PASSAGE.

A dispatch from Berlin to the Stan-A dispatch from Berlin to the Man-dard confirms the report received at Stockholm that Professor Nordensk-jold, having got clear of the ice, has passed Behring strait, thus accomplish-ing his northeast passage.

Murder of a Colored Woman

PETERSBURG, Va., August 4.—Maggie Firms, a colored woman living with James Rose (also colored), a farmer o Sussex county, was brutally murdered last Friday morning together with their child by an unknown negro and a colored woman to whom Rose had been previously married. Rose himself was away from home at the time, and taking advantage of his absence the negro entered the house shot Maggie Time dead and the woman who accompanied him chopped off the infant's head with a spade. The double murder was not discovered until Rose's return Saturday evening.

### Our Exports.

Philadelphia Ledger. Taking the aggregates of our foreign trade for the last four years the exports of domestic products from the United States have exceeded the imports more than seven hundred millions of dol-lars. That is what is meant by a favorable balance of trade. There are politi-cal economists, however, who hold that if our imports had exceeded our exports by a similar sum we would be all the richer. That is one of the things that no one but an expert political economist can cypher out. 'Tis better as it is; and if it were any other way resumption would have a hard road to BULLE

### The Scuppernong.

New Berne Democrat. The wine producing properties of the scuppernong, are unsurpassed and nearly unrivaled; this grape grows in wild native luxuriance throughout this section. Why has wine making from it never assumed the proportions of a settled industry? Were the manufacture of wine in this State as general as t is in France, and was its table use as general, such a thing as drunkenness would be unheard of.

### Poverty Stricken Negroes. oklyn Eagle.

St. Louis is crowded with poverty tricken negroes who have come thus ar on their return from Kansas. They re compelled to subsist entirely upon harity, and contributions for their eople of all parties. It is a pity that he wretches who deluded them for a despicable partisan purpose cannot be forced to support them; but the poor people are not to blame, and they are leserving objects of charity. An apnthropists should not be made in

Rail manufacturers are congratulat ing themselves that an era of prosperity is dawning for them, as proved by the record of the railroad projects now under way in the United States. During the present year 1,083 miles of track have been laid, against 819 for the corresponding period in 1878, 731 in 1877, 932 in 1876, 518 in 1875 and 727 in 1874. The number of improvements and extensions now under way in the United States make an aggregate of an addiional 3,000 miles to the railroad tracks of the country.

Foreign Items. LONDON, August 3.—A correspondent of the Observer at Vienna announces that the Archduches Christine and her mother have left for Biarritz, where t is believed they will be visited by

the King of Spain.

The Observer in its financial article announces that in France the shares in Lesseps, Panama canal scheme are at wo francs discount, and remarks that here are not likely to be any demand for them in England.

ERFURT, August 3.—Herr von Lucius, the new Minister of Agriculture. polled five hundred and five votes in he election for member of the Reichstag. Herr Traegera (Progressist) 2.267, and Herr Kapell (Social Democrat) 1,648.

Supreme Court.

Court met at 10 o'clock on yesterday, all the Justices present. Appeals at the foot of the docket were called as follows: Alanson Capehart vs. Seaboard & Roanoke Railroad Company, from Northampton; argued. R. B. Peebles for plaintiff, and Gilliam & Gatling for

defendant. Elizabeth G. Haywood, executrix, vs. Elizabeth B. Daves, from Wake; Petition to rehear. Argued. E. G. Haywood for petitioners, and D. G. Fowle, Court adjourned until to-day at 10

o'clock. SUPREME COURT DECISIONS.

Opinions were filed by the Justices on yesterday in the following cases. By SMITH, C. J.: J S Caldwell vs. J S Neely, from Mecklenburg; Error. S H Hodgin, guardian, vs. DP Mast. Administrator, et al, from Forsythe; affirmed.

T E Ashcraft et al. vs. T N Lee et al. from Stanly; affirmed. State vs. Asbury Thorne, from Edgecomber reversed. NCRR Co vs. N D Wilson, from Orange; error.

State vs. G W McMinn, from Henderson; affirmed.
State and M E Keykendall vs. R J Price, from Henderson; affirmed. State vs. Wiley Lunsford et al, from

acon; reversed. rank Dobbins vs. R & D R R Co, from Rowan; reversed. BY DILLARD, J.: State vs. John F Bryson, from Jack-

son; affirmed. Rufus Edney vs. TA Edney, from Henderson; affirmed.
State vs. William Roberts, from Buncombe: affirmed. J G Chastain vs. W P Martin, from

Cherokee: reversed.

Cases to be called at the end of the Second District, commencing to-day. 69. Haywood vs. Daves. 70. Bell et als. vs. Adams. 71. Fobes & Co vs. Branson.

72. Branch & Pope vs. Frank & Ad-73. Brickell vs. Halifax county. 74. Polly Hodges vs. Joseph Hodges. 75. J. T. Gooch vs J. H. McGee. 76. J. E. Whitaker vs. J. N. Smith.

77. Shields et als. vs. Whitaker, et 78. T. B. Hill vs. W. H. Shields. 79. Lanier & Brown vs. Joshua Bell, Alfred White vs. David Clark. 81. Burton, Administrator, vs. W. &

Adirondack Murray Insolvent. Boston, Aug. 4.-RevW. H.H. Murray, a well known divine of this city, and editor of the Golden Rule, has become insolvent and his property has been attached for debt. He left the city some days ago for Chicago. The failure causes much comment.

## QUARANTINING CITIES.

THE SITUTION AT MEMPHIS AND OTHER CITIES.

Five NewCases at Memphis and One Death---Two Cases at New Orleans.

MEMPHIS, August 4. - Five new cases of fever were reported to the Board of Health this morning. One death has occurred, James Downey. Rev. Father Dovle is reported worse this morning. Father Fahey continues to improve Rev. Father William Walsh, who arrived yesterday from New York, has assumed control of Camp Father Mathew and begun active work among those of his faith. The weather is very warm and sultry.

NEW ORLANS, August 4.—The cases of Mrs. Howell and son of No. 119 Washington street, were to-day reported by the Board of Health as yellow fever. The patients are im-

St. Lowis, August 4—Health Commissioner Francis issued a special order this morning to the quarantine officers to hereafter stop at that station every steamer from ports below Cairo and to report each arrival to him and release no vessel except upon his order. No new cases of the fever have been developed at the quarantine nor are there any suspicious cases known to be in the city. The weather is getting excessively warm again and several mild cases of sun-stroke occurred yesterday and to-day. Mercury reached 97° yesterday and at 2 o'clock to-day ranged from 94° to 98° on the principal onsiness streets.

### STATE NEWS.

[Correspondence under this head is furnished by regular contributors to the News.] GUILFORD.

A correspondent writing on Saturday announces the death of Samuel S. Willis, an old citizen, at the age of sixtynine. His funeral took place Sunday afternoon at 4:30 o'clock from the Presbyterian church. His son-in-law, Mr. fernon, is depot agent here.

The Granston Templars will meet the delegates to the Grand Lodge that meets at Winston on the 12th, at our depot on the night of the 11th with some refreshments.

To-day has been clear and trade has been fine, and people—everybody—seem cheerful now that the long

CLAYTON, August 4.- The weather is warm and rainy.

Regarding political news, it is said that the aspirants for the sheriff's office already amount to about fifty. It is still a year before the election. How will it be then? It is amusing to visit Smithfield on public days to hear elec-Bethesda Church had a meeting

which lasted several days, and resulted in three additions to the church. Crops are doing well. Mr. A. Horne, one of Clayton's most successful mer-chants, has a lot of the best cotton in the county coming on.

Another correspondent writes that crops are looking very fine and have improved greatly since the rains.
There will be an average yield.

LENOIR. KINSTON, August 4.—The weather is good, with showers every day. Trade is fair. Crops are looking much bet-

ter.
The sash and blind factory belonging Messrs. Hundley, Jones & Company took fire from the engine in use in the factory at 3:30 o'clock on Saturday evening, and was burned down in thirty minutes from the time the alarm was sounded. The building was the property of Mr. J. C. Washington. probably \$2,500. No insurance.

## A Useful Invention.

Wilmington Star, 2d. We examined yesterday a butter refrigerator just invented by a citizen of this place, and for which it is expected a patent will be obtained. It is a simple, but practical and convenient are rangement, by which butter may be prepared for the table and rendered just as solid and cool as in mid-winter, and that with the use of a very small fraction of ice. The refrigerator is of such a character that it can be placed on the table and the butter kept in a solid condition during the progress of a meal. Larger ones can be constructed on the same principle, in which pans of milk can be placed and frozen to a proper consistency without the necessity of putting ice in the milk, as is done ordinarily. It can also be used just as well for preserves or other arti-cles for the table which are rendered unpleasant to the taste by the heat. We saw the butter test applied to the re-frigerator, and in this particular it proved all that is claimed for it.

## A Solution of a Little Mystery.

Danville Daily News. Some weeks since, we published an account of the finding of a batch of human hair imbedded in the fiber of the trunk of a very old tree; the hair evidently having been there for more than a hundred years, the "rings" of the tree showing it. This account was copied in the New York Sun and a Virginia timber-getter, probably a Northern emigrant, saw it and wrote to the Sun to say that he has made three such discoveries within ten years. In each instance the saw in his mill struck an iron spike, and around the head of the spike was found a tuft of negro hair, a little vellowed but sound and strong, although it had been covered up in the wood from one hundred to one hundred and fifty years, as shown by the tree's mark of yearly growth. This gentleman has been told by aged negroes that it used to be a practice among those who believed in voudou charms to nail some of the proposed victim's hair to a young tree, supposing that a diabolical spell was thus wrought. He finds the race in Virginia to this day very superstitions, and given to equally strange

Speech of Postmaster-General Key In response to the serenade tendered

Postmaster-General Key at Burlington, Vt., on Friday night, he said: My FRIENDS: On behalf of those with thank you. I do not take this compliment to mean so much a compliment to myself personally as to me as the representative of one of the great executive departments of government. I also take it to mean to one coming to the North from the far off South that you wish to extend fraternal friendship to wish to extend fraternal friendship to the people of the South, so long as they respect the mandates of the Constitution and obey they laws made under it. [Loud applause.] I come as far North as this rarely. This is the second time I have had an opportunity to see some-thing of Vermont. Two years ago, at-tending the Centennial celebration of the Battle of Bennington. I visited some I come as far North as this rarely. This is the second time I have had an opportunity to see something of Vermont. Two years ago, attending the Centennial celebration of the Battle of Bennington, I visited some parts of your State, but this is the first time I have ever visited your beautiful

city, which is a credit to your State. It city, which is a credit to your State. It is not my purpose to make a speech, I am only making a tour as a private citizen rather than as a public officer. I have been willing to gratify what I conceive to be a pardonable curiosity to see the Postmaster-General of the United States. And now vishing you all health, prosperity and happiness, I bid you good night. [Applause.]

Aerial Navigation. New York Herald.

The ascension of the balloon Canada from Montreal was a success, and the plucky voyagers enjoyed a journey replete with excitement and interest. From a scientific point of view however, the object aimed at was not fully achieved. In a partial degree the machinery worked well, and the paddles and rudder produced the desired effect on the motion and direction of the balloon, but it is evident that much remains to be done before aerial navigation can be depended on with certainty. Nevertheless the trial is a step in the right direction, and the ingenuity that has already accomplished so much may produce improvements that will The ascension of the balloon Canada may produce improvements that will still further assist in the solution of the

### The Corn and Sotton Crops.

Wilmington Star. A gentleman of this city, who has just returned from a somewhat extended tour through Robeson and Richmond counties, in this State, and Marion and Marlborough counties, in South Carolina, informs us that the crops are looking very fine. The planters say they never saw cotton fruit so well, or bear such fine bolls. The only danger to that crop now would be a superabundance of rain, which would make the forms shed off. It was thought for a while that the corn crop in these sections would prove a partial failure, but now a full average yield is anticipated, as they were visited by rains sooner than we were here.

### They Will be Disappointed.

Salisbury News. If Democrats are depending on splits in the Republican ranks to make matters easy for them in the coming elec-tion, they will be greatly disappointed. They will be found solid as a brick. Actuated by a desire for spoils, they all dive into the political pot to make as big a grab as possible, but are not governed by the money principle of "all or nothing.'

### Through Criminal Carelessness. Asheville Journal.

A hundred cities and towns may be desolated through their criminal carelessness, while their corrupt and negligent officials have been quarreling over place and power, and their reckless citizens piping and dancing through the early spring days in the mad festi-

### Smelling a Snake.

Danville News. The Indian doctor who has been about Danville some time has also been to Milton and the Chronicle tells a story about is having been called to see a negre patient near that town recently, when soon after entering the house the Indian cast his eyes about the house and remarked that he a snake!" The inmates laughed at the idea of a snake in the house, but the Indian said he couldn't be mistaken, and approaching the mantle-piece he insisted there was a snake behind it. A stick was run behind the mantlepiece when lo! out crawled a spreading adder, to the consternation of the whole family. Of course the reptile was dispatched.

## The Yellow Fever Outlook.

Special to Baltimore Sun. WASHINGTON, Aug. 2.-In the meeting of the executive committee of the National Board of Health to-day the opinion was expressed that, owing to the stringent regulations put in force in the Southern States, there is less danger of a yellow fever epidemic now than there was a year ago. It is be-lieved that the fever will be confined mainly to Memphis and New Orleans, and that in those cities the mortality will be small in comparison with what it was last year. The early breaking out of the fever in Memphis has proved a blessing to the other Southern cities. in that it aroused the authorities thereof up to the necessity of adopting prompt measures to prevent the fever reaching

Madam Oaksmith. Newbernian. We learn that the venerable and distinguished Madam Elizabeth Oak-smith, the authoress, reached Hollywood on Friday of last week on a visit of sympathy and condolence to her af-flicted son, who we understand has been confined to his bed with a threatened attack of brain fever, resulting from severe mental pressure and grief. His grief-stricken wife, who has been dangerously ill, is thought to be out of immediate danger. Both have had a blow which seldom falls so heavily to any human being, and there is only One who can soothe the sorrow or bring them peace. May He comfort and sus-

Needed Repairs for a New Tenant.

## tain them.

The Washington correspondent of the New York World says: In the report of Colonel Casey, Superintendent of Public Buildings and Grounds, submitted to General Wright, Chief of Engineers, U. S. A., he says: The conservatory at the Executive Mansion is so much decayed that there is great danger of its roof and upper portions being blown off during some summer storm. The structure, which is of wood, should be renewed in iron. Attention is called to the muddy condition of the roads leading to the southern entrance of the Executive Mansion. They should be paved. For refurnishing the Executive Mansion a larger sum is required for the year ending June 30, 1881, than is usually supplied. No refurnishing of carpets or upholstered articles has been practicable for some years back, and much of that on hand is nearly worn out.

The boy stood on the backyard fence, whence all but him had fled. The flames that lit his father's barn shone just above the shed. One bunch of crackers in his hand, two others in his hat, with piteous accents loud he cried, "I never thought of that!" A bunch of crackers to the tail of one small dog he'd tied. The dog in anguish sought the barn and 'mid its ruins died. The sparks flew wide and red and hot, they lit upon that brat; they fired the crackers in his hand and eke those in his hat. Then came a burst of rattling sound—the boy! Where had he gone? Ask of the winds that far around strewed bits of meat and bone, and scraps of clothes, and balls and tops, and nails, and hooks, and yarn, the relics of the dreadful boy that burned his father's barn .- Oliver Wendell

## Holmes,

## NORFOLK MATTERS.

THE ATTRACTIONS AT OLD POINT COMFORT.

Description of The Hygela Hotel-Leading Business Houses at Norfolk.

NORFOLK, August 2.—For years before the war Old Point Comfort had been celebrated as a watering place. The singular salubrity of its climate, malarial fevers being wholly unknown, opened its celebrity as a place of resort during the heated term. Cool and invigorating winds from the broad Atlantic, and tempered with salt exhalations, sweep toward it. The range of the thermometer is from 60° to 70° Fahrenheit, and the nights are so cool as to require cover.

HYGEIA HOTEL, OLD POINT COMFORT, VA. During the war as a military necessi ty the old hotel was destroyed, and it was not until several years after the return of peace that it was built. Under the efficient management of its present proprietor, Harrison Phœbus, with an outlay of \$175,000 during the past six years, it has steadily grown in popularity, and has fully and justly regained its former hold on visitors. The building itself is a substantial four-story structure, nine hundred feet, water front by sixty in width, containwater front by sixty in width, containing two hundred and ninety-three rooms, high pitch, well ventilated, with a venetian blind attached to each door, and handsomely furnished, with capacity to accommodate upward of six hundred guests. The ball room is simply magnificent, a spacious and lofty pavilion 70x90, with two sides open to the sea it combines the two great recombines the two great recombines the sea it combines the sea. the sea, it combines the two great requisites of ample room and cool, fresh, everchanging air. A fine silver cornet band is in attendance, which dispenses music to those who wish to inculge in the Terpsichorean art. The Holly System of water supply, with five hundred feet of hose, capable of throwing four hundred gallons of water per minute, operated by a thoroughly drilled fire department, attaches of the hotel, gives department, attaches of the hotel, gives immunity against fire. The police force in all its details is complete, and were it necessary, the military would assist in maintaining and preserving order. The hotel in all its equipments, table attendants, servants, furniture, and management is strictly first class. The surf bathing could not be besten surf bathing could not be beaten, and as a watering place it is unsurpassed by any other on the seashore. It is easy of access—an average of twenty steamers per day touch the wharf. It is a a favorite resort for excursion parties, and these, without patronizing the hotel, gave the proprietor and guests of became necessary to throw an iron fence across the entrances, through which none can pass without tickets. This arrangement adds greatly to the comfort of the guests by keeping out loafers, dead beats and tramps, but some of the latter have undertaken to teach the proprietor, through some

newspapers, how to run a hotel for their comfort. Fortress Monroe is situated within one hundred yards of the hotel. Except as a school of instruction, the fort is of little use, as with modern improvements in warfare the works would be useless as a place of defense. Here for two years after graduating at West Point, those cadets who graduate high enough to be assigned to the engineering department, are required to serve two years in the artillery school, preparatory to assignment to duty regularly in the army.

THE OLD TOWN OF HAMPTON. near by, within a few minutes' ride, is the old town of Hampton, around which so many historic events cluster. The town was settled in 1664, and incorporated in 1705. One of the earliest engagements of the Revolutionary war occurred here in 1775, in which the inhabitants succeeded in driving off the British. In 1813, it was captured and pillaged by the British. During the recent war it early fell into the hands of the United States, and every house de-stroyed save one dwelling. In 1634 was built a church by the settlers, which, falling into decay, was rebuilt in 1670, by the present one—St. John's —which is perhaps the oldest colonia church in America. Here is situated

THE SOLDIERS' HOME. where the Government takes care of disabled soldiers. The grounds that front the water are laid out in pleasant walks that wind among parterres of flowers dotted with tasteful statuary and other ornaments; while in the midst a brass field-piece, bright as the risen sun, marks the military character of the place, and sends its thunder echoing across the bay each morning and each evening. Never were veterans more tenderly cared for than here; billiard-tables, bowling-alleys, even a theater, are provided for their amusement: and under the efficient present governor, their every want ap-pears to be anticipated. A police force, composed of inmates of the house, patrols the grounds, and neatness, order and thoughtful provision for every possible necessity are every where

apparent. THE HAMPTON NORMAL AND AGRICUL-

is before us, with its quaint Byzantine ordered buildings, its busy crowd of pupils, and its general scholastic air of order and repose. Whatever may be thought of the ca pacity for mental improvement of the negro race—and that there are two sides to the question no candid spirit will deny-it must be admitted that at this institution, under the excellent superintendence of General Armstrong the labor of providing for them teachers of their own race is admirably carried out. Not only are the pupils of the institute instructed in mere scholastic learning, but workshops, where various trades and handicrafts can be acquired, are carried on for their benefit; and the farm attached to the college affords practical instruction in the use ful art of agriculture. A printing office, whence very creditable work is turned out, is one of the features of the place. The African is not the only race to which the Hampton Normal Institute extends its benefits. About seventy of those other wards of the nation, the red men of the plains, are here domiciled to learn the self supporting virtues of civilization.

TAYLOR, ELLIOTT & WALTERS importers and manufacturers' agents, and wholesale dealers in English, German and American hardware. Fairbanks' scales, at factory prices, Charter Oak lawn mowers, etc., They deal in general hardware, steamboat, mill and fishermen's supplies, and can compete successfully with Northern markets. They have an extensive trade in North Carolina and Victims and in

### readers of the NEWS, as the Adjutant General of General Robert E. Lee, during the war.

C. L. UPSHUR

deals exclusively in fertilizers. He is one of the largest dealers in the South, in genuine No. 1 Peruvian Guano; manufacturer of the Peruvian Guano, and Bone Dust Mixture, which is composed of Peruvian Guano, based on the control of Peruvian Guano, based of Peruvian Guano, based on the control of Peruvian Guano, based on the control of Peruvian Guano, based on the control of Peruvian Guano. and Bone Dust Mixture, which is composed of Peruvian guano, bone dust, animal matter and potash; he deals largely in ground raw bone, chemicals, and all kinds of materials for making fertilizers; has an extensive trade in North Carolina and supplies the farmers of the State in great quantities with chemicals. He owns a model stock farm, on which he tests thoroughly under his personal supervision all the brands and chemicals in which he deals, and his character, financial and social, stands so high that the farmers can implicitly rely on any representacan implicitly rely on any representa-tions made by Mr. Upshur. He deals only in first class material, and cannot afford to injure his reputation by put-ting an inferior article on the market. His guanos and chemicals are always of the very highest standard.

W. F. ALLEN & CO. This is one of the oldest houses in

Norfolk, and deservedly ranks as one of the foremost wholesale groceries in Virginia. The firm is composed of gentlemen of large experience, and pos-sess ample capital to meet the demands of their extensive trade in Virginia and Carolina; they carry heavy lines of goods, which they purchase for cash and sell low.

Mr. C. B. Beale drums the North Carolina trade for this reliable house,

and the large patronage he secures at-tests his merits as a successful business

man.

This firm has formed a copartnership under the name of Pearce, Allen & Borum, for the purpose of conducting the commission business, and are prepared to make liberal advances upon consignments.

J. & E. MAHONEY. of Portsmouth, rectifiers and wholesale dealers in foreign and domestic liquors and the most celebrated brands of pure rye and Bourbon whiskies. The house was established in 1863 at great cost. They have put up a complete bottling establishment, possessing every facility for bottling lager beer, ale and porter. This is one of the largest liquor houses on the Atlantic coast and they have built up an extensive trade, in Vir-ginia, the Carolinas and Georgia. Both members of the firm are gentlemen o long experience, have ample capital, are energetic wide awake, live busines men, and merit the success they have attained. With a view to extend the field of their operation, they are fitting up in fine style a large store, adjoining their present place of business, in which they will conduct a wholesale trade in tobacco, snuff and cigars.

OCEAN VIEW. situated eight miles from Norfolk, bids fair to take a prominent place as a seaside resort. The hotel accommodations are being increased to meet the demands made upon this popular resort. In a few weeks the railroad will be completed from Norfolk, and add greatly to the comfort of visitors.

THE NEW ATLANTIC HOTEL, Dodson, owner and proprietor, has won a reputation surpassed by none and equaled by few hotels on this continent. To say more than this would be superfluous; to say less would do the house and its popular and efficient pro-prietor injustice.

## GOVERNMENT PAUPERS.

Plain Opinion About the People Who Lead Dances in Washington.

Hartford Times Letter. Some years ago-and the same condition of things exists now-the wife of a State Department official gave the folowing reasons why the ladies of the State Department officials should rank in the social world above those of the war and naval establishments particu-larly: "In the first place," said she, "the State is a senior department. Secondly, it is acknowledged on every side that it should rank higher than any other branch of the Government be cause its duties relate to diplomatic business, and it is brought into contact, all the time, with the various represen tatives from all parts of the world. Thirdly, army and navy officers are, as a rule, a kind of Government paupers. There is not one in one hundred of them who ever earned a dollar in their lives. They were taken when they were boys and clothed and educated at the expense of the Government, and then supported all through life. It is true they have never had an opportunity to make any thing to add to their own support, but if they ever had, but few of them would accept it. With us, our husbands have generally been in business of some kind, or in professional life, before they accepted positions in the State Department. Most of the prominent officials of the State Department are lawyers, and have earned their own living be fore they accepted Government posi-tions." While it is galling to call the ordinary army or naval officer a Gov-ernment pauper, this explanation makes it appear to be so. It is fearful to contemplate that the leaders of the germans

## are Government paupers.

A Prediction as to Memphis. St. Louis-Globe Democrat. Memphis will very possibly be within two years the central point of big speculations. Real estate will decline to almost no value. It will be bough up quietly by capitalists who can afford to lose much more than they pay for it. Yellow Jack will surprise the by jumping into Canada, or by mysteriously disappearing from the conti-nent. The reaction in Memphis will be greater than her decline. All sorts of business will expand beyond precedent. Houses and lots will appreciate in value so rapidly as to eclipse the wildest mania for Chicago land. She vill pay off all her debts and become a bona fide city again before the headboards in her graveyards become old-the suggestions to burn and forever abandon the city are more sarcastic than reasonable. The fever is as likely to depart suddenly as to remain another year. European cities have been repeatedly ravaged by kindred afflictions and as often have recovered. Unequivocal immunity from the fever next season would immediately render Memphis a giant among the Mississippi river cities. She occupies a controlling situation in a business point of view, and it cannot be changed. Misfortune is always emphatic but its opposite is more so. Men cannot be called foolish who are removing their business establishments from the now desolated own, nor is it absurd to assume that healthfulness will again visit the regions where it has reigned. Some of the very men who think they have left Memphis never to return, will go back and make fortunes there.

## Wilmington Star.

A gentleman who has paid some attention to the matter, assures us that the closing of New Inlet has made a difference of from two hours to two There will be a meeting of the Raleigh

## THE PLANETS IN AUGUST.

HONORED BY THE ADVENT OF TWO FULL, MOONS.

The Morning and the Evening Stars
---Occultation of the Red

### Star Antares. Providence Journal.

Venus is evening star, and eminently deserves the place of honor among the mysterious twinklers throughout the month; for she dons her most beautiful garments, and far outshines her sparkling peers in size and radiant light. On the 19th she reaches her point of greatest brilliancy, and sharpeved observers who know where to look may then obtain a glimps of her before the sun sets, or watch the shad-ow she casts at night in the absence of the moon. There are two of these points in her career, this one occurring thirty-six days before her inferior conjunction and the other occurring in October, thirty days after it. Viewed through the telescope, she now presents the phase of a waning crescent, but, owning to her nearness to the earth, her apparent diameter is nearly six times as great as when she is further off. Venus sets now about 9 o'clock. Her rapid approach to the sun night after night will be evident to the most casual observer, as will be her rapid increase in brilliancy until the 19th, after which she will be

year the Queen of Stars will be missed from the western sky. Jupiter deserves to be ranked with the evening stars, although the calendar does not give him a place there until the last day of the month. He comes into opposition with the sun on the 31st, and is then at his most brilliant point to terrestrial view, being more than one hundred and eighty millions of miles nearer to us than when furthest off. The earth is between the sun and Jupiter, and as the planet's position in the heavens is then opposite the sun, he is said to be in opposition. Thus the two largest and brightest of planets of the system will reach their culminating points during the month, and observers will not fail to enjoy as well as contrast the softened radiance of Venus in the west with the brighter glow of Jupiter in the east. He rises now at a quarter before 9 o'clock; on the last day of the month, just as the sun sets, about half-

so near the sun as to be quick hidden

by his bright rays. At the end of the

month she will set about 7, only half

an hour after the sun, and for nearly a

past six. Sature is morning star. He has de parted from close companionship with Mars, and may be easily recognized in the southeast by his peculiar dull yellow tint and the absence of any other bright stars from his vicinity. He rises now about 10 o'clock, nearly an hour and a half after Jupiter; at the end of the month he rises not long after

eight. Mars is morning star, and noticeable for his increasing size and more ruddy light as he approaches opposition, and the possible discovery of more moons to add to the laurels that crown the brows of the astronomers of the nine-teenth century. He rises now about 11; at the end of the month about 9:30.

Mercury is evening star until the 23d, when he comes into inferior conjunction with the sun, and commences his short role as morning star. He is of little account to observers, as he keeps too near the sun to be visible, unless it be for a week in the early part of the month, when he may possibly be picked up soon after sunset if the sky is cloudless and the atmosphere

Uranus is evening star until the 28th. when he comes into conjunction with the sun; after which he shines among the morning stars. He sets now about 8, but is too far away to be seen by the naked eye. After his conjunction he rises before the sun.

The month of August is honored by

the advent of two full moons-one on the 2d and one on the 31st. The waning moon is near Jupiter on the 4th, Saturn on the 7th and Mars on the 9th. The new moon of the 17th is in conjunction with Mercury and Uranus when one day old, but they are too near the sun to be visible to observers on this planet. The moon is near Venus on the 20th, and if the clouds are kind our lovely celestial neighbors will present an additional attraction, for it is positively their last appearance together for many months. The moon and Jupiter are in conjunction on the 30th, one day before the full.

Thus the skies of soft summer nights will be full of interest for human ob-servation. Two full moons will shed their rounded radiance over the sleep-ing earth and flood the landscape and seascape with silvery light. Jupiter will reign supreme in the eastern sky, and Venus, in the height of her renown, will hang in pensile beauty amid the glowing west. Later in the night Mars and Saturn will divide the starry honand Saturn will divide the starry non-ors with Jupiter, the celestrial trio-gaining in size and brightness as they approach their opposition. The earth will plow her way through the Au-gust meteor zone, and myriad meteors dissolving in fiery tears will give evidence of the annual passage. Besides all this, there will be conjunctions and oppositions visible and invisible of the great celestial forces, as well as a rarely beautiful phenomenon in the occultation of the red star Antares, the leading brilliant in Scorpio, by the moon on the evening of the 24th not far from half past 10. Observers will have busy work in tracing out the movements here indicated on the glowing map which every star-lit night lies open above our heads. If the pleasure-seekers among the mountains, in rural retreats, and on the seashore, would cultivate a taste for astronomy, how grand and uninter-rupted would be their field for nightly observation, and how ennobling and exalting the study of the star-spangled firmament that nightly renews its miracles of beauty to earnest and appreciative eves.

As much ability can be shown in managing a great hotel as in command-ing an army. The skill and watchfulness which have been characteristic of the management of the "St. Nicholas" hotel, in New York, have made it the most perfect example of its kind which one could select to illustrate competence in a profession. This great institution, in its table, rooms, and general conveniences, is known far and wide, and its reasonable charges cannot but increase its great patronage. The "St. Nicholas" may be safely recommended as the prince of hostelries to the visitor to New York.

## Attention Artillery.

at Artillery 8 o'clock. The object of the meeting, to adopt new by-laws, prepare to receive new guns, etc.
By order of the Captain. C. A. SEPARK, 1st Sergeant.

For the past six months there has been a great increase in the value of real estate in the vicinity of New York, and it now commands a better price

than it has for years.

. THE re-funding of the State debt of Virglnia under the adjustment agreed upon is going on rapidly. It is estimated that eight millions of dollars will be re-funded before the meeting of the Legislature.

According to Poor's Manual of Railroads the increase in the earnings of railroads for last year was \$17,194,089 over the previous year. The total of dividends paid amounted to \$53,629,-366, being \$4,926,946 less than the previous year. During the year 2,694 miles of new lines were opened, making the total mileage in operation in the United States 91,841 miles.

A census taken last Sunday shows that 125,000 persons left New York city for that popular seaside resort, Coney Island, A rough estimate is that 500,-000, or half the population of New York, now leave that city every Sunday to enjoy fresh air or a dip in the sea at the thousand summer resorts on the coast or on the Hudson.

THE Suez Canal cost \$87,593,645. Its greatest net earnings were in 1877, when it cleared \$5,480,000, or a little over 6 per cent. on its cost. Yet de Lesseps is going to dig a canal across the Isthmus of Panama at double the cost, and where the business will be only onefourth that of the Suez Canal, and already promises his stockholders 111 per cent, on their money.

AND now it is proclaimed that cotton is no longer king. The statistics for the eleven months ending May 30th show that for the first time in the history of the country the exportation of breadstuffs has exceeded in value not only that of cotton, but of cotton and tobacco combined.

THE stockholders of the Petersburg Index-Appeal Publishing Co. have transferred to R. P. Barham all their right, litle and interest in said company. Mr. Barham becomes responsible for all obligations of the company, and under conditions of agreement, he is entitled to receive all its dues.

THE burden of dispatches from England continues to be the depression in the cotton market. Some of the latest cablegrams show that ten millions worth of mill property in a single district has been lying idle for three years and that, although there has been a reduction of 20 per cent in wages, the mills are still either running on short time or are closed together. House property in the factory towns has lost half its value. The only remedy suggested for this disastrous condition seems to be a further shortening of time in the mills at work.

THE New York Tribune has an ar ticle from Solon Robinson on Southern Agriculture who takes up in his exposition the subject of orange-growing, and scatters with a few words of common sense some of the remantic and foolish notions with which ill informed writers have surrounded it. Indeed, Mr. Robinson sternly insists upon telling us that the natural groves of orange trees, which have been so often and so eloquently described, bear fruit which is as sour as lemons, and that Florida itself is "much more a land of wilderness than a land of flowers."

THE custom of postmasters guessing at the destination of misdirected letters and forwarding them accordingly, has in many instances caused considerable annoyance and loss of time to correspondents. The subject has been under consideration at the department, and a letter prepared, recommending postmasters to discontinue the practice. It is suggested that when postmasters have a positive knowledge of the destination of such letters they may be forwarded, but otherwise they will be sent to the Dead Letter office, or, if the necessary information is upon the envelope, it may be returned to the sender.

ANOTHER "Southern atrocity" bugaboo has been exploded. An Atlanta correspondent of the New York Tribune made a charge that escaping criminals at Atlanta were pursued with bloodhounds, and terrible possibilities were portrayed. The Constitution, however, punctures this bubble by Pee Dee Bee. Stating "that the dogs used to trace criminals in and around Atlanta are not bloodhounds. They are merely the common fox hounds trained to follow the scent of human foxes. Our reporters commonly allude to them as bloodhounds, but some allowance must be made for the romantic tendencies of young men and the requirements of rhetoric. The prosy truth is, we have no bloodhounds amongst us.'

FOLLOWING is a statement of appropriations made during the third session of the Forty-fifth Congress, for the fiscal year ending June 30, 1880, and for deficiencies for former years, prepared by the warrant division of the treasury department: Deficiencies, \$4,633,-824,55; legislative bill, \$16,136,230.31; sundry civil bill, \$17,634,868.56; army bill, \$26,797,300; naval bill, \$14,028,468.-95; Indian bill, \$4,713,478.58; river and harbor bill, \$9,577,494.61; forts and fortifications bill \$275,000; military academy bill, \$319,547.33; postoffice bills, \$5,872,376.10; pension bill (regular) \$26,867,200; consular and diplomatic bill, \$1,097,735; expenses of United States courts, \$2,090,000; miscellaneous, \$2,995,123.77. Total, \$162,404,647.76.

In another column will be seen an article from the New Berne Democrat relative to the arrival at Washington, N. C., of a schooner cleared at St. Martins. Now, while it is not wise to create an unnecessary alarm, the suggestion that strict attention be paid to quarantine regulations is eminently proper. The country is having trouble enough with yellow fever on the Mississippi; and should

the disease break out in our State seaports it would damage their interest to serious extent. Vessels arriving from West Indian ports should be quarantined for safety's sake.

### A PRACTICAL EDUCATOR.

In no business or profession has such radical change been made within the past quarter of a century as that of journalism. From being mere conveyances of partisan views and political opinions, hampered with obligations to this or that person or party for services of a pecuniary nature rendered, the better class of newspapers have become more and more independent, have assumed a really liberal tone, and, in fact, have become what the term implies, newspapers. It is claimed that the press is, or should be an educator of youth; and the remark is made daily that when a paper reaches this point, it commands sufficient patronage to insure its stability and thus increase its influence. The Philadelphia Record in commenting on the subject says: The newspaper is a daily visitor to nearly all, even of the humblest dwell-

ings, and very few are more heartily welcomed. Recent years have effecte wonderful improvements in the preparation of this great vehicle of intelligence; and, for an astonishingly low price, not merely accounts of important events transpiring in every part of the world, but the grand discoveries of science, elegant literature, important inventions and matters of recreation are given. In one of the large dailies may be found usually more than enough to occupy the leisure time of members of a family; and it is certain that yet greater improvements may be made which, in a corresponding degree, may cultivate a taste for the recreations amusements and gratifications which will refine the manners of the people, aid them in gaining the most valuable knowledge, help their efforts to increase the value of the products of the work of their hands, and inculcate in the young the habits, desires and ambition which will elevate them in the social scale. The means of mental and æsthetic culture are abundant, but neglected by many because in early youth a fondness for contemplation of the wonderful things in science and the beautiful things in art and nature had not beer excited. That an incalculable amount o enjoyment is lost to individuals because of the lack of sufficient culture to enable persons to find pleasure in things o a refining and elevating character is not doubted by those who can enjoy such things, but there are many who do not regard such pleasures as being real; they consider the love of investigation into the wonders of geology, or of devo-tion to the refinements of literature music and graphic arts, as affectation, and have no idea that they might find satisfaction in them. It is, therefore, a matter of vast importance to correct this notion, and the newspaper in the bosom of every family is the chief agent by which it may be done. In the conducting of a good daily paper this part of the work of advancing civilization should have more attention, in order that the community may be made to realize the fact that a complete news-paper is the most effective home teacher.

### THE TOBACCO REVENUE.

A comparative statement has just been completed by the Revenue Bu reau showing the receipts from the several specific sources of revenue during the fiscal years ending June 30, 1878-79, and giving the increase and decrease thereof. The principal decrease is on tobacco taxed at the rate of 24 cents per pound. In 1877 the amount upon this grade of tobacco was \$25,320,-065.08. In 1879 it was \$17,969,235.61, being a decrease in 1879 of \$7,350,829.47. The principal increase is on tobacco taxed at the rate of 16 cents per pound, of which there was none in 1878. The amount realized from this source in 1879 was \$6,734,627.89. The aggregate receipts are as follows: In 1878, \$111,-097,725, 49; in 1879, \$113,918,465.61; total increase in 1879, \$2,820,740.12.

## Sherman and Thurman.

Staunton (Va.) Vindicator. Secretary Sherman on a stump speech making Presidential tour in Maine, and then taking passage in a govern-ment revenue cutter, deadhead, gives us a good opportunity to state that Uncle Allen G. Thurman is footing it through Massachusetts with his Demo cratic shirt and socks bundled on a stick over his shoulder.

## He Should Come Out.

Elizabeth City Falcon. We think the name of every man who is at all likely to be nominated for an office of trust should come before the public, so that the charges which his personal and political enemies will pre-fer against him, may be sifted and the truth or falsity of them ascertained.

A Happy Family. Boston Herald. To get elected General Butler seeks he co-operation of the hard-money Democrats and the soft-money Repub licans, the Labor Reformers and the labor employers who run the factories and pay labor eighty cents a day, the rum-sellers and the cantankerous Prohibitionists, the State's Rights Democrats and the centralizing Federal bayonet-users. General Butler is all these and more too, and he will be anything else that may be required of him for the sake of getting elected.

## Very True.

A man who is too stingy to pay for a newspaper, but borrows one from a neighbor, ought not to find fault with the paper when he reads it.

## The Tobacco Plant Enlarged.

Durham Plant. With this issue the Tobacco Plant greets its readers in an enlarged form and otherwise improved. This result has been accomplished by considerable outlay in means and labor, and it will be furnished to subscribers at the same price, but the hope is indulged that compensation will come in the way of a largely increased list.

## LINCOLN'S OLD HOME.

Neglected and Decaying-It is the Rendezvous of Low Characters.

Sangamon (Ill.) Monitor. It is well known that among the objects of interest in this city there are none which attract more attention from strangers than the "old home" and the tomb of the lamented Lincoln. That either of these should fail to have proper care taken of it is simply culpable either upon the part of the owners or the city. If the owners of the former residence fail to have it occupied by a careful tenant and saved from the danger to which it is constantly exposed from the tramps infesting us and the low-down brutishness found so plentiful among both sexes and among all colors in this city, because of its being empty, the owner is to be censured, while the city authorities should have at least respect enough for a spot of so much interest to the thousands of strangers annually visiting us to have it sufficiently under the eye of the police to guard it from fire and desecration in the man

are compelled to do, parties have witnessed the most undoubted evidence that it is the hiding-place for the vilest characters. On last Wednesday morning was this unquestionably the case, as parties know from the most convincing proofs. On yesterday morning proofs. On yesterday morning proofs the state of the case, as parties when the case of ing, when about to "go to roost" them-selves, a party secured a couple of the best policemen on the force, as they

went homeward, and instituted a search. The windows of the back portion of the house—which had been closed by some watchful neighbors out of pure respect for the place-were found open and bearing other evi-dences that somebody had frequented it after darkness had hid them from yiew, and after careful hands had closed the place, as they presumed, from invasion. It is true there was no one found in the house—which was hardly expected after an unguarded suggestion made the morning before that the police should cataboose as va grants all who would be caught about the premises at any time without a rea-sonable excuse. We think if the own-ers don't do something in the way of a better protection to their property the city should. It would be a lasting shame on the city if it should burn down or be destroyed through neglect, and we would be the greatest sufferers besides endangering other property in the neighborhood of value. Robert T. Lincoln could do no act that would immortalize his name as one having a proper respect for a dead parent of such distinguished character as his father, than to select some soldiers—one who has fought his way to distinction, but who, like thousands, unfortunately have not a great abundance of this world's grows, but his respectability and honor, or wounds, or both, with the inheritance of God's mark of nobilty-poverty-and let him take charge of it while he lives. The idea that it should be sold for a colored woman's home is an outrage on the soldiers and the public, who have an interest in it. We hope something will be done to prevent it.

Flooding the Sahara. The plan of Mr. Donald Mackenzie for opening up the interior of the African continent to European commerce by admitting the waters of the Atlantic through an artificial channel into a vast depressed area of the arid desert which has for ages been the impassable bar-rier that has isolated the dwellers of the rich and fertile countries lying to the south from contact with civilization, has just received a fresh impulse by its presentation in popular form in the pages of Scribner's Monthly. The project of Mr. Mackenzie is older than bat of Roudaire for creating an African inland sea, though by no means so well known as the latter; and if the engi-neering features of the scheme have been correctly stated and observed, the Mackenzie project could be made to ac-complish vastly more important results, at a cost not greater and probably considerably less than that of Roudaire. What is known as the Basin of El Joof is a great depression, 200 feet below the ocean level, in the western portion of the Desert of Sahara, covering an area of 60,000 square miles, and was at one time an arm of the Atlantic Ocean, the channel of which was placed not far from Cape Juby, opposite to the Canary Islands. The mouth of this ancient channel, which is still discernible, is 24 miles wide, and is blocked by a sand-bar about 300 yards across, and elevated ten to thirty feet above sea-

Assuming these statements of the topography of the region to be accurate, rations affirms unequivocally, all that would be required to convert the arid easin of El Joof into a vast inland sea of 60,000 square miles in area, would be to pierce this ancient channel with a canal 300 yards in length and a little over thirty feet deep. A small ditch only would be required for this purwhen communication was once estab-lished, the water of the ocean would pour into the depressed basin, and cour out the channel for itself, The feasibility of this project on the score of engineering difficulties, says the Engineering and Mining Journal, does not appear ever to have been called into serious question; and of the two rojects, Mackenzie's and that of Roulaire, for flooding the Algerian chottes, the former is not only vastly the greater in the possible geographical and cli-matic changes it would bring about, but in its commercial aspects also, since it would bring Timbuctoo, the great negro metropolis, within 2,000 miles of England, making it, practically, a seaport, and the whole of North Central Africa would be brought within asy reach of the harbors of Europe. Mr. Mackenzie has championed this scheme zealously and indefatigably for a number of years, and though he has suffered many checks and disappointments, his faith in its ultimate success appears to be unshaken.

## Is there Danger?

Arrived at Washington, N. C., on Wednesday last from St. Martins, W. I., schooner Mary Louisa, Gaskill, master, with a cargo of molasses, etc., to R. W. Minor. The arrival of this vessel, a regular trader to and from our sister town of Washington, is ordinarily a matter of little consequence, except to those directly interested in the vessel or cargo, but in this instance, arriving as it does from a West India island in which the yellow fever has broken out, and where it no doubt exsted before the departure of the vessel, its arrival is a matter of no little mo-ment. We trust that the authorities at Washington have instituted a quarantine, and taken such precautions as are necessary against the possible introduction of the terrible disease, which now afflicts the people of Memphis. The report of the fever at St. Martins is official, having been communicated by our consul at that Island to the State Department at Washington.

## Personal Notes.

Ex-Speaker Grow is said to be favorably considered by the Cabinet for the English Mission. The appointment would be one altogether fit to be made.—*Utica Herald* (Rep.).

Jefferson Davis, by a decision rendered a year ago, recovered a very large plantation which he had lost. This, added to the recent legacy of Mrs. Dor-sey, makes him one of the largest landed proprietors in the South.

Dr. Hugh J. Glenn, or "Farmer Glenn," the candidate for governor of California of the new constitutional party, cultivates 45,000 acres of land and has 10,000 acres of wood. He owes \$600,000 on it, but will clear half of that this year. He is a Virginian by birth, a Missourian by education, and formerly a horse dealer by occupation. He is also the Democratic candidate, and is opposed to the railroads.

### Newspaper Notes. Mr. George Jones, owner of the N. Y.

Mr. James Gordon Bennett, owner of the N. Y. Herald, is at Saratoga Springs. Mr. Whitelaw Reid, of the N. Y. Tribune, has gone West, following the dvice of the founder of the paper.

Times, has gone to Europe.

Mr. George W. Childs, owner of the Philadelphia Ledger, is said to give the best and the most attractive dinner parties at Long Branch. Mr. John Russell Young will soon

arrive in N. Y. City to complete preparations for the new daily paper that is to advocate Grant for President.

THE GREAT TONIC AND ALTERATIVE WATERS OF THE

# BUFFALS LITHIA SPRING NO. 3

The most Valuable and Powerful Tonic Waters of Virginia, and, with one exception, the most Valuable Tonic Water of the United States. most Valuable Tonic Water of the United States.

43 ANALYSIS of this Spring, made by Prof. Wm. P. Tonry, of the Maryland Institute Baltimore, March 17, 1877. Results expressed in grains per imperial gallon, shows it to contain 3,774 grains of the Carbonate of Iron, which is recognized by all medical men as in comparably the most potent and valuable form in which iron can be used as a Tonic. A comparison of this analysis with that of other chalybeate waters of the American Continent shows that the Buffalo Lithia Spring No. 3 contains a larger percentage of CARBO. NATE OF IRON than any other Mineral Water in Virginia, and, with one exception, a larger percentage than any other Mineral Water in the United States, Between this water and chalybeate waters generally there is one important difference. Chalybeate waters, as a general rule, are ASTRINGENT. The water of Spring No. 3 is APERIENT rendered so by the Carbonate of Potash.

With this powerful BLOOD TONIC, in conjunction with the ismous Buffalo Lithia Springs No. 2 (which contains a larger percentage of the Bi-carbonate of Lithia than any known Mineral Water,) one of the most powerful alterative waters of the world, and to which is attributed by many eminent medical men a peculiar power as "a Nerve Tonic," it would seem to be a self-evident proposition that these Springs offer inducements to those in search of health, found nowhere else upon the American Continent.

height, Unfurled her banner to the breeze, We'll bet ten cents she didn't wear Her clothes pulled back to her knees. Two hundred women of Boston have formally signified their intention to take advantage of the law which con-fers upon them the right of suffrage in school matters.

A Maine lady has a babe thirteen months old that weighs seventy-five pounds. "This is my boom," she says

Uncle Sam has two hundred woman teeth pullers. There are about twenty millions or so of hair pullers.

Tight pantaloons are coming into fashion again, and Dr. Mary Walker is indignant. "They are such a give away," says she.

They were walking along the village street, and they were newly wedded husband and wife. The air was insuf-ferably hot, when he, looking at the signs, "ice-cold soda" and "lemon ice cream," said: "Ice is very bad for the teeth; it ruins the enamel." Then she took out her new set, and putting them gently behind the tying-post said:
"Sweetly, we will take all the precautions and save all the enamel."

Handbook of the Piedmont Air-Line. The passenger agents of the different railroads running into the western portion of North Carolina are publishing illustrated handbooks of their respect ive lines, giving graphic descriptions of the different points of interest. The News has received several of these, but the one furnished by the Piedmont Air-Line is perhaps the most complete as well as the most interesting to our people. This route is pronounced the shortest, cheapest and most direct route from Norfolk, Richmond, and all eastern points to the mountain resorts and mineral springs of Western North Carolina, the beautiful "Land of the Sky," as it is justly termed, of whose mystic wonders and charming retreats from the aggressive cares of busy life the historian and descriptive writer have but half told. Engravings of wild river and railroad scenery as well as graphic sketches of interesting historical points abound throughout the work, and are accompanied by well-written descriptions which afford racy and pleasurable reading.

Delightful Perfumes.

Dr. Price has prepared a rich variety of perfumes, from which the most fastidious can select an odor with agree-able satisfaction. Dr. Price's Pet Rose, Meadow Flowers, and other perfumes, are great favorites, as their sweetness and freshness are so decided.

Communion Wine.

The grape crop of A. Speer's vinevards in New Jersey last year, was onethird larger than any previous year. His vineyards in New Jersey, and the product from the grapes he purchases, have enabled him to keep a stock four years ahead. None sold less than four years old. It has become a popular evening wine among the best families in New York, and for communion purposes. For sale by Wm. Simpson, Raleigh, N. C.

Medical.

# uticura

Infallibly Cure all Skin and Scalp Diseases, Scaly Eruptions, Itchings,

and Irritations The testimonials of permanent cures of Skin and Scalp Diseases which have been the torture of a lifetime, by the Cuticura Remedies, are more wonderful than any methods or remedies known to the medical profession. profession. Cuticura Resolvent, a powerful Blood Pu rifier, is the only purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus de-

glands to the surface of the skin, thus destroying the poisonous elements with which these vessels have been daily charged. Cuticura, The Great Skin Cure, applied externally, arrests all unnatural or morbid growth which cover the surface of the diseased glands and tubes with Scal Jitching, and Irritating Humors, speedily if removes them leaving the pores open, healthy, and free from diseased particles of matter.

Thus internally and externally do these great remedies act in conjunction, performing cures that have astonished the most noted physicians of the day.

Salt Rheum for 30 Years On the Head, Face, and Greater Par-of the Body, Cured.

of the Body, Cured.

Messrs. Weeks & Potter: Gentlemen, I have been a great sufferer with Salt Rheum for 30 years, commencing in my head and face and extending over the greater part of my body. I have taken galions of medicines for the blood of different kinds and tried good physicians, all of which did me no good, and I came to the conclusion that I could not be cured. But a friend called my attention to an article in the Union on skin diseases, and I got a box of Cuticura. The first application was a great relief and the third took the scales all of, and I felt like a new man. I have used three 50-cent boxes and my skin is smooth and I consider myself entirely cured. Hoping that this may be seen by some one afflicted as I have been (if there is any) is my earnest wish. And I cheerfully recommend it to all persons afflicted with like diseases.

Yours truly,

B. WILSON LORD.

AGAWAM, MASS., Sept. 9, 1878.

The Cuticura Soap should be used for leansing all diseased surfaces, as most oaps are injurious to the skin.

LEPROSY. A Modern Miracle. Astonishing Re-

sults from the use of Cuticura. Messrs. Weeks & Potter: Gentlemen.— We have a case of Leprosy in our poorhouse which is being cured by your Cuticura rem édies The county had employed all of our doctors and had sent to New York for ad-Vice, but to no avail.

The patient commenced using the Cuticura and immediately began getting better. He had been confined to his bed for two and one half years. Had not had his clothes on during this time. Last week he dressed for the first time.

on during this time. Last week he dressed for the first time.

When he walked, there would at least one quart of scales come off of him.

This happened every day.

We think it is a wonderful cure.

We do not think he is cured, but he is in a fair way to be cured to say the least.

Yours truly,

DUNNING BROTHERS,

Druggists and Booksellers.

THE GENUINE

DR. C. McLANE'S CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hapatitis, or Liver Complaint, DYSPERSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he com-plains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up tortitude enough to try it In fact, he distrusts every remedy Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are un-

KING & BROCKWELL.--For sale.

### LOCAL BRIEFS.

-A regular meeting of St. John's Society will be beld in St. John's Hall to night at 8 o'clock.

--- A number of prominent lawyers are in the city in attendance upon the Supreme Court.

-Dr. Thos. E. Skinner was elected last night as pastor of Salisbury Street Baptist Church by a vote of 139 to 32. -Yesterday was a daisy, and last night ----, well, last night was an ex-

Every buman being in the city last night was converted into a rain shed or percelator.

-The pleasure turnouts of this city and their occupants are unusually handsome and well gotten up this sea---- Mr. Julian S. Carr was in the city yesterday. He leaves for Sarato

ga and the Northern pleasure resorts on Thursday next. -Mr. G. E. Leach has come back from his summer resort to the Warm Springs and will continue to enjoy the

warm effects of hard work, at least during the month of August. The excursion to Norfolk this morning will be largely attended on the part of our citizens and all along the line of the Raleigh & Gaston and Wil-

mington & Weldon railroads. -Mr. C. M. Bustee has returned from a two weeks' visit to Buffalo Lithia Springs. He is greatly improved in health by his trip.

-The excursion to Beaufort on the 12th instant will afford an excellent op-portunity for the citizens of Raleigh to enjoy the beneficent effects attendant upon a visit to the sea, and at small ex-

-Pleasure seekers are going away and coming back every day. The citizen that stayeth at home, neither goeth or cometh, but worketh hard and grumbleth much and still is not happy.

-The Rescue Fire company treated themselves to a pleasant ice cream party last night and likewise invited their contemporaries, the Chemicals.
The entertainment was well served at Mr. Fentress' ice cream saloon.

-Mr. H. A. Reams, of Durham, spent a portion of vesterday in Raleigh. He was asked if Durham would be willing to move to Raleigh if it were made a tobacco center. No, no." said he. "It would be more natural for the smaller place to move to the larger. Durham pays more tax in a month than Raleigh does in year. These tobacco men will brag on Durham.

-A remarkable feature of the telephone, it is said, is its perfect adaptability to the requirements of deaf people. Persons who cannot hear ordinary conversation, or even the bell signals, can converse together by telephone at any distance as easily as persons of the best hearing.

—A Florida paper is responsible for the following: "A young lady came home from the skating rink. Young lady-'Ma, I slipped up and fell on my 

-As many as forty names were presented to the county commissioners yesterday as suitable persons to serve on the school committee of this county. The commissioners were either overcome by overwhelming numbers or the heat or the importance of the matter or what not. At any rate they did not appoint a committee yesterday.

Mayor's Court. But one case before the Mayor yes terday morning, Peter Plummer, assault and battery; \$1 and costs.

In this city, at 4 o'clock on the morning of the 4th, Wade Hampton, infant son of C. D. and Mary F. Osborn, aged thirteen months.

Large Snake. Henry Faucett, baggage-master on the Raleigh & Augusta Air-Line Raif-road, residing in the Fifth ward of this road, residing in the rith ward of this city, has on exhibition a coach whip snake measuring five feet three and one-fourth inches. He captured the "varmint" near Keyser.

Funeral Notice. The funeral services of Wade Hampton, infant son of C. D. and Mary F. Osborn, will take place at their residence, corner Hargett and McDowell

streets, this morning at 7 o'clock. The services will be conducted by the Rev. J. M. Atkinson. The remains will be carried to Cary, N. C., for interment. Friends of the family are invited to County Commissioners.

The Board met yesterday and levied the county taxes, which run on a sliding scale, making half a column of the NEWS. Road and bridge business was discussed, and a constable or two appointed. School business was not reached. The Board adjourned to meet at the poor house to-day, and at the court house to morrow.

Try Them. Teachers will find it to their advantage to send to Alfred Williams & Co., Raleigh, for complete catalogues of school books, etc. Any books wanted will be supplied by this firm at the very lowest prices and every order will have promptest attention. They publish "Moore's School History of North Carolina," and will gladly send circulars, etc., containing opinions of prom-

inent educators. The Beaufort Excursion.

On to-day week (Tuesday, 12th instant) there will be an excursion from this place to Beaufort, under the direction of J. A. Jones, manager, for the benefit of the Methodist charenes of this city. The fare from Raleigh being \$3.00, round trip; tickets good for fif-teen days. No charge for children un-der six years of age. All who have not yet visited this delightful summer resort, and those who again desire to, had better embrace this opportunity for so doing. Enjoy yourselves and at the same time aid a worthy cause.

Western North Carolina.

Re, which was held on the 30th ult., and continued in meeting the most of last

He states that the management of the road has been most satisfactory and the exhibit encouraging. The receipts for the past year are in excess of any previous year and the passenger and freight traffic has been much greater this season than heretofore. Major

Wilson, president of the road, says he expects but little further trouble from Mud Cut. The dirt brought down by the slide is hauled off and used as a filling to complete the high treatle just this side of the Cut. Until the recent rains there were only three days within the past six months in which the trains did not run the Cut, and he hopes to entirely overcome the trouble in a short time. He promises that the cars will run through o Gudger's Ford, seven miles this side of Asheville, by the next regular meeting, which occurs November 10th. Mr. Battle also states that the general expressions indulged in by those who have passed over the road is that it is a wonderful piece of engineering, and re flects credit on Major Wilson and his

corps who planned the work. The crops generally are greatly ben efited by the late rains, and the people are in good spirits. Asheville is filled with strangers. Over 1,500 pleasure seekers have found the same and are enjoying it there now. Western North Carolina is a greater resort this season

The Press Convention. The following from Mr. W. A. Davis, editor of the Oxford Torchlight and secretary of the North Carolina Press Association, under date of August 4th,

fully explains itself: The Seventh Annual Convention of the North Carolina Press Associa-tion will meet at the Atlantic Hotel, in Beaufort, Wednesday, August 20th, 1879. The Virginia press has been invited to meet with us, and a number of its most prominent members have accepted the invitation. Passes have been forwarded to all applicants over cepted th the following roads: Raleigh & Gaston, Wilmington & Weldon, and West-ern North Carolina. All editors will be passed free over the Atlantic & North Carolina Road by making North Carolina Road by making themselves known to the conductors. (This road runs from Goldsboro Beaufort.) Colonel A. B. Andrews, Superintendent of the North Carolina Road, will send out passes over his road at once, those failing to receive them by the 10th will please notify him. Half rate tickets will be issued over the Carolina Central (from Charlotte to Wiimington) by ap-

plying to ticket agent. If satisfactory transportation arrangements can be made a special train will leave Beau-fort, August 24th, to convey the mem-bers of the Association to Western North Carolina where they have been united to accept the hospitalities of the proprietors of the Glen Alpine Springs. This seventh annual re-union, will from present indications be the largest ever held in the State. Every arrangement for a "good time," has been made. I will be glad to answer all letters concerning the association if received by the 13th instant-after that date I expect to be from home.

Let all attend

RALEIGH, N. C., Aug. 4, 1879.

To the Editor of the Daily News: SIR: I hear there are some bad persons in Raleigh who have circulated scandalous reports against me, to-wit: That I made application to the city authorities to bury my husband, and likewise that I procured his imprisonment. Now, sir, I pronounce both to be false, and the originator of said reports is a liar and cannot claim much credit in trying to injure, by false and malicious falsehoods, a lone and unprotected woman. May God reward them according to their works.

Respectfully, Mrs. R. GREESON. HOTEL ARRIVALS.

Mr. C. A. Dana, editor of the N. Y.

"Truth lies in a nat-shell," and "brevity is the soul of wit." To be brief, when the shell is broken the truth will be discovered, that, the Grand Central Hotel on Broadway, New York, now kept on both plans, the American \$2,50 or \$3.00, and the European \$1.00, and upward per day, gives more satis-faction for the same money, than any other first class house in Gotham. An elegant Restaurant, at moderate prices, is conducted by the Grand Central. \*

It is to your Interest to Know that Payne Bros. are now making the best bricks on this market and selling them lower than the lowest. They can afford it, as they give the business their

undivided attention and being practical men know how to make them by economy and of best quality.

They use the well known and long tried "Crab Tree Clay" which is unsurpassed in the State of North Carolina. We guarantee our brick and work to give perfect satisfaction. For further nformation call on Wayne Allcott, Agent, corner Wilmington and Davie Streets or address, PAYNE BROS.

P. O. Box 75, Raleigh, N. C.

Gun and Locksmiths.

Brockwell & King, near the rear of the U. S. Court House, on Salisbury street, are prepared to repair in firstclass style, Breech-loading and Muzzle-loading Shot Guns and fire arms of every description. They also repair Door Locks, Trunk Locks, and locks of all patterns, Umbrellas, Parasols, Fluting machines, and everything in the line of small hardware, either brass, steel or iron. Sign and Bell hanging a specialty. Orders from a distance will eceive special attention. Keys fitted at residences on short notice. All work warranted.

False Impression. It is generally supposed by physicians and the people generally that Dyspepsia cannot invariably be cured, but we are pleased to say that Green's Mr. R. H. Battle has returned from the western part of the State, where he has been for the past two weeks in attendance upon a regular meeting of the Board of Directors of the W. N. C. R. las Sour Stomach, Costiveness, Sick Headache, Palpitation of the Heart, In-digestion, bad taste in the mouth, etc. Out of the 50,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from Druggists of wonderful cures. Three doses will relieve any case. Try it. Sample bottles 10 cents.

Wood! Coal! Grain!

I am prepared to fill all orders for wood, coal, grain, forage, &c., promptly and satisfactorily from my old stand, near the N.C. R. R. depot. Orders left at C. D. Heartt's shoe store will receive prompt attention. JOB OSBORN.

Coughing in Church.

No place in the world equals London for the constant barking kept up in the churches. It is like a perpetual fusilade of small arms. Why don't they take Hall's Balsam and get rid of their coughs? It is the most wonderful remedy, and the proprietors warrant it in every instance. Let all coughers give it a trial.

You can now stop at the Grand Centrai Hotel, on Broadway, New York, the American plan for \$2.50, or \$3.00 per day; or you can, on the European plan, take your breakfast there, in the morning, take your lunch down town, or dine with a friend, and your room at the Hotel will only cost you \$1.00 per day, and upward, and meals are also provided, at moderate prices, at the elegant Restaurant attached to the Ho-

Ladies Slippers at 40' cents, child's Ties at 20 cents, good quality ladies' garters at 90. Ladies goat shoes at one dollar,

Beyond a Question. Dr. Price's Cream Baking Powder is free from all adulterants, hence the purest and most economical. It is beyond question the best and most perfect of anything in the market. Dr. Price's Cream Baking Powder is not sold in bulk, it is put up in cans, securely labelled.

scription of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will greatly oblige, very respectfully,
WILLIAM BARR.

The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been a member of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, cc. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she con-tinued steadily to improve, and at this clear held at \$5.00. Baron in good demand at full prices—shoulders \$4.00 @—; short rib \$5.00; short clear rib \$5.50@—; Whisky active and firm at \$1.04. Butter steady and unchanged; Sugar steady and unchanged. Hogs active; packing, \$3.40@3.60.

Aug 4.—Cotton—Middling, low mid dling, good ordinary: Galveston—quiet at 11, and 10% cents; net receipts 183 bales. Norfolk—quiet at writing, so old, seemingly in as good health as a person who had never been afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints for which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WAD-DILL, Proprietor Lynchburg News. For sale by Wm. Simpson, Pescud, Lee & Co., and F. H. Heartt, Raleigh, N. C., and Druggists generally. LANDRUM & LITCHFIELD,

Abingdon, Va.

easy at 103, 108 and 10 cents; net receipts 268 balcs. New Orleans—quiet and firm at 112, 111 and 11 cents; net receipts 2 balcs. Mobile—dull and nominal at 111, 11 and 102 cents; net re-

nominal at 114, 11 and 107 cents; Not 12 ceipts 5 bales.

WILMINGTON, Aug. 4.—Spirits turpentine firm at 25½. Rosin steady for strained \$1.02½, good strained \$1.07½; Crude turpentine steady; hard \$1.00; yellow drip \$1.75; vlrgin \$2.25. Tar firmer \$1.02½. Corn steady; prime white 57. white 57.

The Charleston News and Courier says: "Everybody has heard of Geo. H. Chapin's farm agency, and few are unacquainted with the success which has attended its operations."

The New England Farmer says: "Geo. H. Chapin has advertised his farms to the amount of \$50,000 during the past year. We commend him to our readers.

The Aiken, S. C., Review says: "No one has done more than Geo. H. Chapin in the cause of Southern immigration. Our village is thronged with Northern people in search of Southern homes, and good sales are being made. The "South Illustrated" is doing a great work for us."

The New York Tribune, the Boston Herald, Journal, Traveler, Globe, and Advertiser, weak in the highest terms of Chapin's Farm agency.

Repairing Promptly and Carefully Done. Talbott's Patent Spark Arrester,

THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrest of attracting universal attracting and er is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies.

Its prominent features are:
It does not destroy the draft.
It does not interfere with cleaning It will not choke up, and requires no It requires no direct dampers to be

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy constitution. and the boiler is kept in a filthy con It is simple and durable, and can be

relied upon.
It can be attached to any boiler.. No planter should be without one of hem. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as harged for water or horse-power.
